---

SUMMARY

Frontend developer with nearly 3 years of experience building Vue.js applications for enterprise fleet management systems. Passionate about real-time systems, mapping technologies, and creating intuitive user interfaces. Strong expertise in WebSocket integrations, Google Maps API, and state management with Vuex/Pinia.

EXPERIENCE

Software Engineer II - Frontend Developer

MCEasy | Full-time | Hybrid

March 2023 - Present | Surabaya, Indonesia

- Built and maintained Vue.js applications for a fleet management platform serving enterprise clients
- Developed Control Tower Dashboard with real-time vehicle monitoring using WebSocket and GraphQL
- Created Alert Center System with Google Maps integration and dual codebase (Vue 2 + Vue 3 Nuxt)
- Implemented Orthophoto Map Overlay with dynamic tile loading and service worker caching
- Delivered Fleet Operations Suite: Maintenance Management, Scheduler, and Shift Management modules

Marketing Agent

Vista Property | Freelance

July 2018 - Present | Surabaya, Indonesia

- Property agent specializing in apartment and house rentals and sales
- Built client relationships and conducted property viewings and negotiations

EDUCATION

Full Stack JavaScript Immersive Program

Hacktiv8 Indonesia

June 2022 - November 2022 | Jakarta, Indonesia

Intensive 4-month bootcamp covering full stack web development. Learned JavaScript, Node.js, Express, React, Vue.js, PostgreSQL, MongoDB, and RESTful API design. Built multiple projects including e-commerce platforms and real-time applications.

Bachelor of Economics - International Economics and Trade

Jinan University

August 2013 - June 2017 | Guangzhou, China

Studied international trade, economics, and business management. Active in extracurricular activities including Diabolo Club, DodgeBall Team, and Table Tennis. Developed strong analytical and communication skills.
